**COMMENTS:**

☐ **This parcel is located within the Great Basin Water Co. service tariff area. Water and sewer is available at the above estimated cost.**

***Notes:***

☐ **This parcel is NOT located within the Great Basin Water Co. service tariff area. Parcel would need to be annexed into area in order for GBWC to provide service.**

**PLEASE NOTE**: **The costs for extensions provided on this form are ESTIMATES ONLY and are not all inclusive of fees that** may be applicable at the time of construction. They are provided to give the inquirer a general idea of what the extension costs may be. If you are serious about proceeding with construction, please contact our office. GBWC will request a proposal for engineering costs and you will be informed of your cost to complete engineering. If you desire to proceed with engineering, you will be required to sign an Engineering Agreement and be required to pay the proposed engineering costs. Once engineering is completed, GBWC will request bids to obtain estimated costs to complete construction. You will be provided the bid costs and if you desire to proceed with construction, you will be required to execute a Utility Service Agreement with GBWC and pay the proposed construction costs along with the remaining tariff fees as shown above. Water Rights information below is based on the 4/12/2006 Water Allocation Report prepared by Resource Concepts, Inc. and submitted to DWR. GBWC understands the accuracy of the answers will be determined by reference to that report and the designation of the Original Developer as Residential. **Please refer to the GBWC Tariff for a complete listing of costs, fees, rules & regulations.**

**INQUIRY EXPIRES 45 DAYS FROM MANAGERS SIGNATURE DATE.**
