Dear Customers,

On March 16, 2020, Corix Utilities (Texas), Inc. ("CUTX") filed a request with the Public Utility Commission of Texas ("PUCT") and other regulators to increase water and wastewater rates for its Texas customers.

Since our last rate request, we have made significant investments in our systems and have also experienced increased operations and maintenance expenses due to higher testing and chemical costs, increased maintenance activities, higher labor costs, and increased regulatory compliance costs. Because our current rates do not accurately reflect our actual costs to provide service, the requested increase is necessary at this time.

CUTX's rates are subject to the approval of the PUCT. We have requested that rates take effect for all customers on April 20, 2020, which at least 35 days after the filing of its application. However, **no change in rates will take effect until it is approved by the applicable regulatory authority.** The attached "Customer Notice" provides further information about this filing, including a description of the change in rates, instructions on how to review the entire application and how to protest the proposed rate change.

While we understand that there is never a good time to raise rates, this increase is necessary to allow us to continue to meet our shared goals of providing outstanding wastewater service and safe and reliable drinking water delivered to your taps. It also ensures safe working conditions for our staff and continued prudent business practices.

We welcome any feedback from our customers, whether it is about our proposed rates or about our services. You can contact us at (877-718-4396) from 8:00 a.m. to 5:00 p.m. Monday through Friday, or email us at askcorixtexas@corix.com.

Respectfully,

CUTX Management
